NEWSLETTER

From The Secretary's Desk

Welcome to the Winter/Spring edition of the Society's newsletter. Once again as I write my piece for this issue we continue to see a large area of Australia struggling with severe drought. I would also like to thank members for the efforts they have gone to in promoting the breed at shows and field days through these harsh times.

I would also like to extend a warm welcome to new members, Norm and Nancy Wall of Western Australia and Brooke Morham of Lurg Vic, to the Society and we look forward to helping them promote the breed in your respective areas.

Also, a special mention should be made of the success Scott Costello of Wattle Grove Maines had at Orange Show. For the first time all breeds, which included Maines, Angus, Shorthorn, Limousin, Galloways, were all shown together in age classes. Scott exhibited the Supreme Exhibit Female with Wattle Grove Charlotte, The Junior and Reserve Junior Bull. Uandi Maines exhibited the Junior and Reserve Junior Heifer and the Reserve Senior Bull. In total the Maines only missed out on the Senior Champion Bull.

It has been decided that in future advertisements placed in either the newsletter or on our web site, should be paid for by the advertiser. This money would go towards the publishing expenses of the newsletter as well as future promotion of the breed. The newsletter will be published twice a year and all information, advertisement requests and photos for the newsletter should be sent in by the middle of February for the March, Summer/Autumn, issue and by the third week of August for the September, Winter/Spring, issue. You can find the fees for ads inside this issue. Web advertising charges can also be found inside this issue of the newsletter.

The Board has also been working on setting up a herd book for, Maine Angus. This herd book will be separate to our Maine Anjou herd book and will have its own set of rules. The name has been registered and the group will be known as Maine Angus. The final details will be completed at the next board meeting in November.

I would like to take this opportunity to wish everyone a fruitful spring, Merry Xmas and a wonderful, wet and prosperous New Year. To all breeders whether showing at Melbourne Royal, local shows or open days for beef week, may they be very successful and thank you for your efforts in continuing to promote our great breed.

MAINE ANGUS AUSTRALIA

The Australian Maine Anjou society are in the process of developing The Maine Angus breeding program which is an initiative created by the American Maine Anjou Society to showcase the complementation of Maine-Anjou genetics when crossed with Angus or Red Angus cattle.

This program will reveal Maine-Anjou cattle's ability to enhance feed efficiency and red meat yield when placed on British based genetics. This program should provide seedstock that will increase production and carcass yield through heterosis.

The name Maine Angus is both strong and informative by stating exactly what breeds are present in said animal.

The standard requirement is that both parents must be registered with the Maine-Anjou Society of Australia and Angus Australia or Red Angus Society of Australia.

Once established the resulting progeny will have to be between $\frac{3}{8}$ and $\frac{5}{8}$ blood of either Maine Anjou or Black/Red Angus. All qualifying animals will be predominately solid black or red in colour with only small white markings allowed near the navel, just in front of the under or in the switch of the tail as per the colour standards.

New Zealand Maine Anjou News

Hi All,

Well another calving season is already here. An interesting time as the culmination of breeding selections come to fruition.

Weaner prices in the Autumn were slightly back on last year but Maine-Anjou held their own and sold well at auction and privately.

Beef prices have been steady with bull sales good and steers, cull cows and bulls making very good prices at the works.

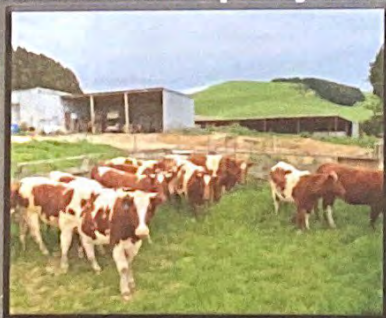

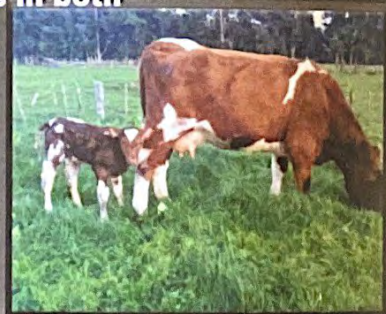

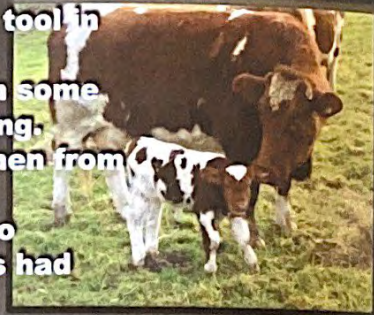

In June we held our annual meeting at David and Lyn Jull's near Auckland and had a great time looking at Northern members cattle, then an enjoyable meal out together. We had the privilege of having Gary and Sandy Graham from Canada at our meeting and cattle tour. They gave us a rundown on Maine-Anjou in Canada and insights of their many years of breeding Maines which was well received and very informative.

Recently we have established a website for the NZ Maine-Anjou Society which hopefully will be a useful tool in promoting the breed.

A couple of breeders are in the process of bringing in some semen from France with an emphasis on easier calving. There is also a possibility of getting some polled semen from Canada.

Due to the outbreak of Micoplasmabovis there was no showing of cattle which was disappointing as Maines had performed well in the show ring in the last couple of seasons.

I wish breeders both in Australia and NZ a successful calving and breeding season with with more quality Maines in both our countries.

CROSSING MAINE-ANJOU

Charolais/Baldy
cross Maine

- * Do you want quieter calves?
- * Do you want easy calving?
- * Do you need to increase your weight for age in vealers?
- * Want to retain the colour of your herd?

The answer is simple; Maine-Anjou!

The Maine-Anjou breed is naturally quiet and this temperament trait is passed onto their calves.

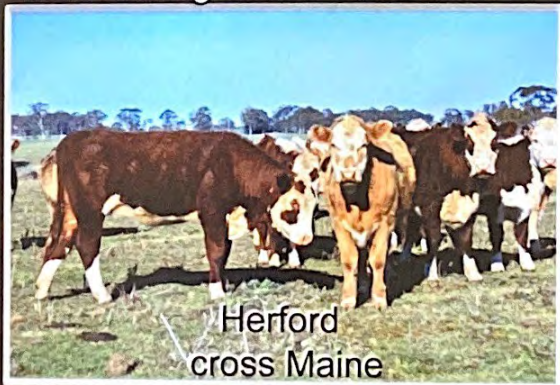

Through careful selection, Maine-Anjou Australia members have been breeding easy calving Maine-Anjou cattle whilst still maintaining excellent weight for age. Generally when a red & white Maine-Anjou bull is used over – for example a black Angus, the calf will in most cases inherit the mother's coat colouring and be black.

Lardner Park

Lardner Park is located approximately an hour South Eastern of Melbourne Victoria, a Regional Farming area of lush countryside and stunning views. The Lush area has good sustainable growth with good rainfall and excellent production of livestock. The Annual Field Day "Farm World" held at Lardner Park has become a great area to exhibit Maine Anjou Cattle and show case and promote breeders within the Society. Karen Morham, Andrew Brunt and Amanda Croxford talked everything Maine Anjou, with a huge amount of interest generated by the very little known breed. The team were able to convey the potential of the breed to Commercial beef Farmers and dairy farmers alike.

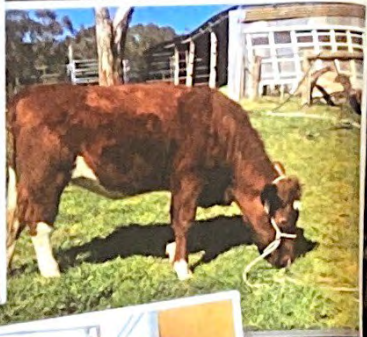

Morham Maines and Heartland Maines Represented Maine Anjou Society Ltd at the exhibit, with Morham Maines presenting stud cow "Rouge Fleur" and calf "Rouge Bai'be" and Heartland Maines presenting 2 year old Bull "Chrysler".

Rouge Bai'be was very popular with the kids and a real draw card for the Exhibit, with many photos taken. Champion Cow Rouge Fleur was a great example of a productive female and Bull, Chrysler showed off his powerful physique with excellent thickness and beefiness.

The annual event is excellent in representing the breed and helps support our Southern members.

WATTLE GROVE

Maine Anjou

WATTLE GROVE

For Sale

Excelsior Zeal

G: PURE
H: SCURRED
DOB 15/10/18

His dam Wattle Grove Charlotte not only won Junior Champion Female as a Heifer at the 2017 Sydney Royal Show, but with Excelsior Zeal as a calf at foot this year, won Grand Champion Female at Sydney Royal Show, Bathurst Royal Show and Orange Show.

Zeal in his own right has also won Junior Champion Bull at Bathurst Royal Show and Orange Show 2019 at 7 months old.

* With the exceptional award winning genetics behind him, it's no doubt why Zeal has become such an exceptional bull.

* Whilst thick bodied and well muscled, Zeal is still soft and balanced. Zeal would be a start breeder's dream stud sire with so much potential and carcass traits.

WATTLE GROVE

For Sale

Echo's Attraction

G: PURE
H: POLLED
DOB 08/01/18

* As a calf at foot, Echo and his dam Wattle Grove Black Madame won Senior Champion Female at both Sydney Royal Show and Bathurst Royal Show in 2018.

* As a bull in his own right, Echo also won Reserve Junior Champion Bull at both Sydney Royal Show and Bathurst Royal Show in 2019.

* Echo is sired by the Imported Canadian Bull Rocky Lane Black Attraction.

* With Imported and Outcross genetics behind him as well as the Champion Show results he has achieved, Echo is the bull that will go on to suit both a commercial or stud enterprise.
